

Biochemical Changes in Disease

Collection Editors: Inês Lopes Cardoso and Fernanda Leal

Description

This book aims to understand and identify the main biochemical changes that occur in several diseases namely musculoskeletal, oncologic, neurological, nutritional, infectious, endocrine, metabolic and cardiovascular diseases. It should also be focused on the recognition of possible biochemical markers of each disease, highlighting how they can be used in diagnosis.

About the Editors

Inês Lopes Cardoso - Associate Professor of Biochemistry and Genetics at the Faculty of Health Sciences of the University Fernando Pessoa. PhD in Biotechnology by the Superior School of Biotechnology of the Portuguese Catholic University and Degree in Biochemistry by the Faculty of Sciences of the University of Porto. Integrated member of CEBIMED (Centre for Studies in Biomedicine) of the FP-ENAS (Research Unit in Energy, Environment and Health of the Fernando Pessoa University). She has published several books in national and international publishers and articles in international scientific journals in the areas of Biochemistry and Health Sciences.

Fernanda Leal - Associate Professor of Biochemistry at the Faculty of Health Sciences of the University Fernando Pessoa. PhD, Master and Degree in Chemistry by the Faculty of Sciences of the University of Porto. Integrated member of CEBIMED (Centre for Studies in Biomedicine) of the FP-ENAS (Research Unit in Energy, Environment and Health of the Fernando Pessoa University). She has published several books in national and international publishers and articles in international scientific journals in the areas of Biochemistry and Health Sciences.

Submission Requirements

All chapters submitted should conform to the grammar and formatting guidelines provided by Cambridge Scholars Publishing, which can be viewed here: <https://www.cambridgescholars.com/pages/forms-guidelines>;

Unless agreed with the Editor prior to submission, referencing should be in Chicago;

Any work submitted for publication should be free of copyright restrictions and a statement should be submitted in support of this;

Contributions should be scholarly rather than anecdotal or unverifiable;

Contributions must be wholly in English, excluding footnotes, appendices and short extracts for translation;

While we will perform pre-press evaluations on the collection, we do not provide full proofreading services, so we ask that works are submitted to us in their final, 'ready-to-go' form.
