

Cardiology for Biologists

Collection Editor: Alexey Baron

Description

The purpose of the proposed book *Cardiology for Biologists* is to provide interested bachelors and masters with basic information about the most common diseases of the heart and blood vessels. Such information will help biologists learn the problems of cardiology in the solution of which the interaction of medicine and biology is necessary. The book should consist of separate chapters devoted to specific diseases and can serve as the beginning of a book series as manuscripts come from interested authors.

About the Editor

Alexey V. Baron is a Senior Researcher at the Institute of Biophysics, Siberian Branch of the Russian Academy of Sciences, and Assistant Professor at the Siberian Federal University. His primary specialist subject is Internal Medicine, and he was the Head of the clinical diagnostic laboratory at the medical centre of RUSAL from 1994-2011. He has taught medical biochemistry at the Krasnoyarsk State Medical Institute, and General pathology and Pathological physiology at the Siberian Federal University, 1989 - to date. He has published 71 scientific and educational articles to date.

Submission Requirements

All chapters submitted should conform to the grammar and formatting guidelines provided by Cambridge Scholars Publishing, which can be viewed here: <https://www.cambridgescholars.com/pages/forms-guidelines>;

Unless agreed with the Editor prior to submission, referencing should be in Chicago;

Any work submitted for publication should be free of copyright restrictions and a statement should be submitted in support of this;

Contributions should be scholarly rather than anecdotal or unverifiable;

Contributions must be wholly in English, excluding footnotes, appendices and short extracts for translation;

While we will perform pre-press evaluations on the collection, we do not provide full proofreading services, so we ask that works are submitted to us in their final, 'ready-to-go' form.
