

Challenges in Modern Physics

Collection Editor: Salvador Miret Artés

Description

In this publication we seek to report findings regarding the most important challenges within modern physics. We welcome additions from experts globally and in a multitude of disciplines of physics to contribution to the open questions we seek to answer in the near future. Examples include, but are not restricted to, questions from the fields of Gravity, Quantum Computing, New Materials and Astrophysics.

About the Editor

Professor Salvador Miret Artes was born in Valencia Spain and has since become the Director of Institute of Fundamental Physics. Alongside this, he has published more than two-hundred and twenty scientific papers and has co-authored eight books.

Submission Requirements

All chapters submitted should conform to the grammar and formatting guidelines provided by Cambridge Scholars Publishing, which can be viewed here: <https://www.cambridgescholars.com/pages/forms-guidelines>;

Unless agreed with the Editor prior to submission, referencing should be in Chicago;

Any work submitted for publication should be free of copyright restrictions and a statement should be submitted in support of this;

Contributions should be scholarly rather than anecdotal or unverifiable;

Contributions must be wholly in English, excluding footnotes, appendices and short extracts for translation;

While we will perform pre-press evaluations on the collection, we do not provide full proofreading services, so we ask that works are submitted to us in their final, 'ready-to-go' form.
