

Clinical Cancer Treatment, Merge between Techniques & Therapeutics

Collection Editor: Da-Yong Lu

Description

A great progress has been made in cancer treatments over the past decades. To introduce these important challenges, this book highlights recent advances of different medical disciplines and modern techniques in clinical cancer trials, especially on discipline and technical merges.

About the Editor

Da-Yong Lu, born in Shanghai. Graduated from Shanghai Institute of Materia Medica, Chinese Academy of Sciences and Shanghai Medical University. He was the first author of more than 150 original scientific articles published in international journals and three books on cancer, suicide, and HIV therapeutics.

Submission Requirements

All chapters submitted should conform to the grammar and formatting guidelines provided by Cambridge Scholars Publishing, which can be viewed here: <https://www.cambridgescholars.com/pages/forms-guidelines>;

Unless agreed with the Editor prior to submission, referencing should be in Chicago;

Any work submitted for publication should be free of copyright restrictions and a statement should be submitted in support of this;

Contributions should be scholarly rather than anecdotal or unverifiable;

Contributions must be wholly in English, excluding footnotes, appendices and short extracts for translation;

While we will perform pre-press evaluations on the collection, we do not provide full proofreading services, so we ask that works are submitted to us in their final, 'ready-to-go' form.
