

Networked into Collaboration

Collection Editor: Lambert Spaanenberg

Description

Many things, albeit living or artificial, can come together to collaborate for a higher functionality. Humans come to special units, animals swarm to share, and Things on the internet collaborate for more. All these provide functional degrees of parametrizable intelligence in multi-disciplinary applications.

About the Editor

Lambert Spaanenberg has 50 years of experience in microelectronics, embedded systems and neural engineering. Characteristic for his work is the constant innovation in teaching and research. At Twente University he developed GALS and BILBO design styles together with Phillips industries. Later, he turned turned to embedded intelligence in automotive, telephony and vision.

Submission Requirements

All chapters submitted should conform to the grammar and formatting guidelines provided by Cambridge Scholars Publishing, which can be viewed here: <https://www.cambridgescholars.com/pages/forms-guidelines>;

Unless agreed with the Editor prior to submission, referencing should be in Chicago;

Any work submitted for publication should be free of copyright restrictions and a statement should be submitted in support of this;

Contributions should be scholarly rather than anecdotal or unverifiable;

Contributions must be wholly in English, excluding footnotes, appendices and short extracts for translation;

While we will perform pre-press evaluations on the collection, we do not provide full proofreading services, so we ask that works are submitted to us in their final, 'ready-to-go' form.
