

Portal Hypertension

Collection Editor: Dmitry Garbuzenko

Description

Portal hypertension is a major complication of cirrhosis, and its consequences, including variceal hemorrhage, ascites, and others, lead to substantial morbidity and mortality. The past several decades have seen major improvements in the clinical management of complications of portal hypertension, resulting in substantial gains in patient outcomes. However, important challenges remain.

About the Editor

Professor Dmitry Garbuzenko, MD, graduated from the Medical Faculty of Chelyabinsk State Medical Institute in 1985 and defended his PhD thesis in 1991. Since 1996 he has been part of the Department of Faculty Surgery, South Ural State Medical University, first as Assistant Professor, before later becoming Associate Professor (2003), and finally receiving a full Professorship in 2010. He defended his doctoral thesis (M.D) in 2008.

Submission Requirements

All chapters submitted should conform to the grammar and formatting guidelines provided by Cambridge Scholars Publishing, which can be viewed here: <https://www.cambridgescholars.com/pages/forms-guidelines>;

Unless agreed with the Editor prior to submission, referencing should be in Chicago;

Any work submitted for publication should be free of copyright restrictions and a statement should be submitted in support of this;

Contributions should be scholarly rather than anecdotal or unverifiable;

Contributions must be wholly in English, excluding footnotes, appendices and short extracts for translation;

While we will perform pre-press evaluations on the collection, we do not provide full proofreading services, so we ask that works are submitted to us in their final, 'ready-to-go' form.
