

Toward the New Economic Thinking

Collection Editor: Paata Leiashvily

Description

The key problem for adequate understanding of market economy, is the mechanism of self-organization. Relatively new branches of knowledge, such as Chaos Theory, theory of neurosystems, 2nd order cybernetics, constructivism, as well as dialectics undeservedly forgotten by modern economists, supply the ideas, which inspired the search for new economic thinking.

About the Editor

Prof. Paata Leiashvily was the Director of The Institute for Social and Economic Studies from 1997-2000, a Chief Researcher at the P. Gugushvili Institute of Economics from 1999-2002, Professor of Iv. Javakhishvili Tbilisi State University; 2002 – 2007. Parliament of Georgia, Budget Office, Head of Department; then Leading Specialist of Finance Committee; 2006-2007. Associated Professor of Iv. Javakhishvili Tbilisi State University, Department of Theoretical Economy.

Submission Requirements

All chapters submitted should conform to the grammar and formatting guidelines provided by Cambridge Scholars Publishing, which can be viewed here: <https://www.cambridgescholars.com/pages/forms-guidelines;>

Unless agreed with the Editor prior to submission, referencing should be in Chicago;

Any work submitted for publication should be free of copyright restrictions and a statement should be submitted in support of this;

Contributions should be scholarly rather than anecdotal or unverifiable;

Contributions must be wholly in English, excluding footnotes, appendices and short extracts for translation;

While we will perform pre-press evaluations on the collection, we do not provide full proofreading services, so we ask that works are submitted to us in their final, 'ready-to-go' form.
